Color Codes: Exact match, Partial match, Not found.

note the value of cracked hashes it starts with 1 and goes in a sequence till 13

now lets assume the 13 are rooms and 0 is the exit room

which contains flag

now we got the cracks of hash and now we convert 0 value into hash :

copy the hash of 0 and paste it in endpoint
it will direct to a room that shows the flag copy it and submit

Congratulations on completing Corridor!!! 🎉
